MEET BOB

Bob is a Caribbean flamingo, from the island of Curaçao. His life took a dramatic turn when he flew into a hotel window, leaving him severely concussed. He was cared for by my cousin Odette Doest, a local vet who also runs a wildlife rehabilitation centre and conservation charity – the Fundashon Dier en Onderwijs Cariben (FDOC).

Existing disabilities meant Bob couldn't be released, but instead he became ambassador for FDOC, which educates the local community about the importance of protecting the island's wildlife.

OUR FINE ART PRINTS

Jasper Doest Photography is dedicated to producing fine art prints of the highest quality. With careful media selection and handling and acute attention to detail and color, each of our prints is produced and inspected individually in our studio.

Using professional fine-art photographic printers, archival pigment inks, and the archival print media listed below, our process produces beautiful prints with refined accuracy and exceptional print permanence ratings.

All proceeds from this collection will be donated to FDOC's conservation and education program.

FINE ART PRINT MEDIA

FineArt Cotton paper (gloss)

The natural white paper comes in a pleasant, warm shade of white and contains no optical brighteners. The exquisite surface texture gives the paper a lovely, delicate feel while at the same time lending it an artistic note.

The combination of the cotton artist paper and high-gloss finish lends FineArt prints a striking character with a beautiful, elegant sheen, without glare.

FineArt Cotton paper (matt)

The white cotton artist's paper, with its characteristic, wonderfully soft feel, boasts a lightly defined felt structure, lending each artwork a three-dimensional appearance and impressive pictorial depth.

Combined with the matt finish, this paper produces outstanding prints that feature brilliant colours, deep blacks, striking contrasts and perfect reproduction of detail.

* Our standard matting is done in-house and is available for standard prints up to 45 cm's / 18 inches

ABOUT

Jasper Doest is a Dutch photographer who works at the divide between the natural world and mankind, while creating visual stories that provide an insight in the non-human lives we share this planet with.

As an ecology major Jasper knows human life depends on everything our planet has to offer, yet he recognises the unsustainable nature of the current human patterns of consumption. Through his photographic work he gives a voice to the natural world and tries to bridge the gap between the natural world and ourselves.

As a true believer in the power of photography to initiate change, Jasper is a Senior Fellow of the International League of Conservation Photographers and a Dutch World Wildlife Fund ambassador.

His work has been contributing to international journals such as *National Geographic Magazine*, *Smithsonian Magazine* and *GEO* and received numerous awards, including World Press Photo and Wildlife Photographer of the Year.
